

# Going with the Flow?

The Breath is your most direct connection with Life-Force Energy, and the essential flow of life occurs in each breath. However, cultural and family conditioning often leads to the disruption of our natural healthy breathing patterns. Transformational Breath is a powerful wholistic approach to healing and regenerating body, mind, emotions and spirit. Restore your natural, joyful connection to your Breath and your world. When we transform the way we breathe, we also transform the way we experience life.

## Reclaim Your Breath

### Levels I, II & III (Seminar) Personal Training

The first three levels of training focus on transforming your own breath and life, and are open to anyone who wants to do so. Learn how to use the breath to create powerful and permanent personal transformation in less than a week.

The week-long Seminar begins the process of mastering your breath and understanding how it is directly connected to mastering your life. We'll explore numerous ways of working with the breath, so that it becomes an indispensable tool for daily living. Two or three breath sessions each day provides a wide diversity of full, diaphragmatic breathing techniques. We also incorporate coaching skills and very powerful self-healing modalities that support the changes initiated by Transformational Breath.

This program is sometimes available in different schedules for those who are not able to attend a continuous
